## EXPERIENCE

---

### Entertainment Technology Partners

December 2022 - Present

*Web Developer*

*Orlando, MD*

- Migrated multiple websites from WordPress to a headless CMS built with Sanity, resulting in improved website speed, reduced costs, and enhanced developer and user experiences.
- Redeveloped digital marketing infrastructure to streamline workflows, improve collaboration, improve SEO, and enhance analytics reporting, leading to a boost in online presence & experience.
- Set up modern DevOps infrastructure, including Git, Turborepo, UI libraries, and CI/CD tooling, to facilitate efficient development and deployment processes.
- Developed optimized, and maintained a portfolio of brand websites using Next.js, Vercel, WordPress, and Share-Point Framework, ensuring cross-browser compatibility, security, privacy, mobile responsiveness, and seamless integration with external APIs/databases.

### The Child and Adolescent Health Measurement Initiative

September 2020 - July 2021

*Intern*

*Remote (Baltimore, MD)*

- Supported upgrading of existing Wordpress site to Sitefinity MVC Model by implementing and improving interactive web elements with HTML, CSS, and JavaScript.
- Assessed operations, documentation, and health data sets to improve accuracy and productivity.

### Computational Neuroscience Lab at The Mind/Brain Institute

October 2019 - May 2020

*Undergraduate Research Assistant*

*Baltimore, MD*

- Expanded computational models of Drosophila neuron behavior using morphology data, experimental results, and theoretical neuron behavior with Python and NEURON.
- Helped compile findings into research paper.

## EDUCATION

---

### Johns Hopkins University

May 2022

*Computer Science B.S., Visual Arts Minor*

*Baltimore, MD*

Relevant Coursework: *Full Stack JavaScript, Databases, User Interfaces & Mobile Applications, Operating Systems, Object Oriented Software Engineering, Artificial Intelligence*

Universitat de Barcelona/IES Abroad: *Spring 2022 Semester Abroad*

## TECHNICAL SKILLS

---

### Languages

Currently Using: *JavaScript/Typescript, HTML/CSS, Sass*

Familiar With: *C, C++, MySQL, Python*

### Technologies
